RIDDEN COMMUNICATION

Saturday 12 May 2007

ZONE LINING

STRAIGHTNESS: Improve your competition results

Competition horses perform best when they are straight through the curve and on a straight line. A horse can only be straight if your leg to hand contacts are true.

RIDDEN COMMUNICATION: Enhance your accuracy and calmness

Are your aids saying what you want, with the correct timing for your horse to effectively perform them? Learn to communicate with your horse from his back.

ZONE LINING: The key to Zonal Training

Establish true communication with your horse by enabling him to move with you.
